New York Captioned Telephone (CapTel) is a service that enables people who are deaf, hard of hearing, DeafBlind or speech disabled to communicate with standard telephone users such as family, friends or businesses with ease. The conversation works through the use of a CapTel phone which functions like a traditional phone and displays what the other party says throughout the conversation. Users speak directly to the other party and listen and read the other party's response. Captions appear on the bright, built-in display screen of the CapTel phone, just moments after the other party has spoken.
Behind the scenes, advanced speech recognition software is used to deliver captions of calls while a live communication assistant access proprietary tools to ensure accuracy of what the standard phone user says. CapTel services are a free service and is available 24 hours a day, 365 days per year, with no limit on the number or length of calls a user may make. By law, every call is handled with the strictest confidentiality. The Customer Service number is 888-269-7477. To call a Captioned Telephone user, dial: 877-243-2823 in English or 866-217-3362 for Spanish.
